

Did any of you catch the royal wedding?

Kristen: I did, I watched it.

What did you think of the bridal shower and all of that stuff?

Kristen: Well I think all of her bridesmaids were like five, right? I bet they really whooped it up. They were all little except her sister. Right?

Annie: She's a party animal.

Paul: Does Kate have a hen night? A bachelor party night?

Judd: She doesn't walk around with those penis necklaces right?

Kristen: They have little rhinestones on them.

I was just wondering if you have to approach writing raunchy humor for girls differently then for guys and was there anything particularly torturous to the cast that you felt bad about?
